Many people now use a digital wallet instead of carrying coins or cash. A digital wallet is an app on your phone where you can keep your money safely. You can connect it to your bank card and pay in shops just by holding your phone near a machine. It is also very useful when you don't want to take your wallet or when you forget your card at home.

Digital wallets are popular because they are fast and easy. You don't need to wait for change, and you don't have to touch money that many people have already touched. Some people even use them to send money to friends or to pay for things online. Of course, you need the internet and a charged phone; otherwise, you cannot use it. Still, for many people, digital wallets make daily life simpler.

1. **Why might someone choose a digital wallet instead of a real wallet?**
 - A. Because it is always cheaper than cash.
 - B. Because it is faster and more convenient.
 - C. Because it never needs the internet.
2. **What does the text suggest about using cash compared to a digital wallet?**
 - A. Cash is more hygienic than a digital wallet.
 - B. Digital wallets can help avoid touching dirty money.
 - C. Digital wallets are more difficult to use than cash.
3. **What problem could happen if you try to pay with a digital wallet?**
 - A. The shop might not have access to the internet.
 - B. Your phone could be without battery or internet.
 - C. The shop may refuse to let you pay with a digital wallet.
4. **How do digital wallets make shopping easier?**
 - A. You don't need to count coins or wait for change.
 - B. You get discounts every time you use it.
 - C. Shops prefer digital wallets to cards.
5. **What is one extra use of a digital wallet mentioned in the text?**
 - A. paying your rent
 - B. sending money to friends
 - C. paying the electricity bill
