## King's English 2025 I ROUND - SPRING

## (15 points, 3 points each) Task 1. Read and choose the correct option A, B or C.

Stonehenge is one of the world's most famous ancient monuments, located in England. It consists of massive stone circles, built over 4,000 years ago. Historians and archaeologists still debate why it was built and how people moved the giant stones without modern tools.

Some believe Stonehenge was used for religious ceremonies, while others think it was an ancient calendar. Scientists have discovered that the stones align with the sun during the summer and winter solstices, which suggests it may have been used to track time.

Despite many theories, the true purpose of Stonehenge remains a mystery, making it one of the most fascinating landmarks in the world.

1.	Where is Stonehenge located?				
	A. France				
	B. England				
	C. Egypt				
2.	What makes Stonehenge myste	erious?			
	A. It is made of gold
